2nd June 2025

**Paddleboarding – Monday 16<sup>th</sup> June**

**Dear Families,**

As part of our *Seas and Oceans* topic, we are very excited to offer the children an amazing opportunity to explore our local coast with real experts.

On **Monday 16<sup>th</sup> June**, weather permitting, we will be heading to **Marazion Beach** for a day of paddle boarding and beach exploration. The paddle boarding session will be run by **Ocean High (AALA-licensed)**, a respected and well-established water sports company. The session will be led by **Lawrence**, a highly experienced water sports professional.

In addition, his wife **Heather**, an internationally recognised marine biologist who has worked across the world studying coastal environments, will be leading us on a beach exploration. We are incredibly lucky to have her expertise on the day as she is here for one day only before heading off on her next expedition!

This trip has been approved by Cornwall Council. *(Buoyancy aids will be provided.)*

The day will be split into two activities:

- A session of paddle boarding with Lawrence
- A session of beach exploration with Heather

Children will be split into two groups, swapping activities at lunchtime.

**What to bring:**

- Packed lunch and a filled water bottle
- Long-sleeved wetsuit (if you have one — wetsuits will be available to borrow if not)
- Water shoes or wetsuit boots (if you have them)
- Swimming costume
- Towel
- Sun hat
- Warm clothes for after the activity
- Waterproof jacket

We are really looking forward to giving the children this hands-on opportunity to learn more about our local coastline and how we can protect it. Please ensure your child is properly equipped for the day - being warm and comfortable will help them enjoy it fully.

If you have any questions, please do not hesitate to get in touch.

To cover the cost of the trip we politely request a contribution of £5 per child, payable via MCAS.

Yours sincerely

The St Levan Team
