

Strategies for supporting pupils with Special Educational Needs and Disabilities in Religious Education (RE) lessons.

Individual Need	Here's how we help everyone shine
Attention Deficit Hyperactivity Disorder	 All adults supporting the child within the classroom will have a good understanding of how best to support the child using a non-confrontational approach Any rules/expectations will be consistently implemented Seating arrangements will be considered carefully to minimise distractions 'Time out'/'help cards' can be used to ensure the child is able to communicate that they need a break Instructions and key information will be given clearly so the child understands what is being asked of them and how they will achieve the learning goal Children will be given the correct preparation before the lesson so they know what will be happening and what to expect prior to the lesson
Anxiety	 Before the lesson, there will be a discussion between the adult and child so that the child can choose where they would like to sit Children will be given the necessary preparation prior to the lesson so that they know what to expect Any new vocabulary will also be shared with the child before the lesson Any changes that will be made to the seating plan or organisation of the lesson will be shared with the child beforehand Children will be able to use a 'help card' if they feel that they need support within the classroom
Autism Spectrum Disorder	 Adults who have a positive, supportive, trusting relationship with the child will be available to support Learning will be adapted so that it is accessible e.g. broken down into small steps, additional visuals etc. Seating arrangements will be agreed with the child prior to the lesson and any changes to the organisation of the lesson or classroom will be shared with the child through a social script/the use of visuals Preparation for what is coming up next will be provided with the use of visuals Time will be given for the child to process new information and instructions with the support of visual cues

	Planned and unplanned sensory breaks will be used
	and there will be a breakout space available
	throughout the lesson
	 Any group activities will be carefully planned/supported,
	also allowing the possibility of independent work if the
	child finds the social expectations of group work tricky
	The use of an individual whiteboard will be used to ensure
	the child is not expected to copy from the shared
Dyscalculia	whiteboard
	Adults will ensure that questioning is adapted to support the
	child's understanding
	 Adults will ensure that font size is 12 or above and any
	printed resources will be on pastel coloured paper,
	avoiding black font on white paper
	Numbered points or bullet points will be used rather than
	large paragraphs of writing/information
	 Children will be able to use a ruler or their finger to follow
Dyslexia	writing/text when reading
	 Text boxes or borders will be used to highlight important
	information
	• The use of pictures, diagrams, clear sub-titles and 'colour-
	coded text' will be used to break up large sections of
	information
	 Text to speech technology will be used if necessary
	 Children will be provided with a large working space with an
	accessible route into and out of the classroom
Decompositor	Instructions will be written clearly for the child, using different
Dyspraxia	colours for each line
	Visual timelines of the lesson will be provided with a tick list
	of activities/expectations so that the child is aware of how
	to reach the learning goal
	 Time will be provided for the child to: move around the
	room, complete tasks within the lesson, process information
	and pack up and leave the session early if needed
	Adults will discreetly check that: the child is wearing their
	hearing aid, the radio aid is working (if applicable)
	 A discussion will take place between the adult and child so
	that the child is able to choose where they sit/where is best
	for them to access the learning within the classroom
	environment
Hogring	
Hearing	Background noise will be minimised (e.g. windows shut) and the classroom will be a quiet, calm environment
Impairment	and the classroom will be a quiet, calm environment
	Questions asked by other children will be repeated clearly
	so that the child is aware of any key information being
	shared
	 Adults will face the child when talking and ensure their
	face is well-lit to best facilitate lip-reading
	 Children will sit close to the front ensuring an unobstructed
	view of all aspects of the lesson
	Children will be provided with key vocabulary specific to
	history with technical terms explained

	Children will be able to leave the classroom whenever
T - 11 - 12 1	
Toileting Issues	Seating arrangements will be carefully organised so that the
	child can access the toilet as easily as possible
	Staff will be aware that the child may arrive late to the lesson
	Learning will be carefully adapted to suit the child's
	individual learning needs. Visual diagrams and pictures will
	be used to support new information
Cognition and	 Instructions will be given clearly with both physical and
	verbal cues with visuals to support so that the child fully
	understands the expectations of the lesson
Learning	 Children will be given time to process questions and
Challenges	formulate answers
Chancinges	 Word banks will be provided with key vocabulary linked to
	the focus of the lesson
	 Information will be repeated in a variety of ways, using a
	range of vocabulary
	 A writing frame will be provided to support writing during
	independent activities
	 Children will be given time to process information and to
	give responses to answers
	 Speech will be clear and slowly paced so that children
	can understand what is being said, what information is
	being shared and any instructions that are being given
Speech	 Long sentences will be broken up into smaller, short
Speech,	sentences that can clearly be interpreted
Language &	 Symbols, signs and visual timetables will be used to
Communication Needs	support communication
ineeds	 Lots of opportunities will be given to communicate in
	either a pair or small group context to develop
	confidence and ensure comprehension
	 Positive responses will be given to any attempts at
	communicating
	 Adults will regularly check the child's understanding
	throughout the lesson
	Adults will have understanding of how to individually
	support the child with tics to ensure they feel safe and
	respected
	 Adults will support the child to ensure they feel supported in
	participating within the lesson however they feel comfortable
Tourette	 Children will be provided with a tick list/structure to
Syndrome	completing an activity that supports their attention span
	and helps with the planning and organisation of the activity
	 Adults will plan sessions carefully, being mindful of the
	sensory processing
Experienced	 The PACE approach will be used by all adults Adults will carefully check through the content of the lesson
Experienced Trauma	
naoma	to ensure they are considering the child's context and
	background before the lesson takes place. If necessary,
	lessons will be adapted with this information in mind to avoid
	triggers and to ensure the child feels safe and secure

	 Children will be provided with a safe and familiar break-out space if they need it throughout the lesson The use of a 'help card' will be available at all times Adults will have good understanding of how best to support the child with their emotions
Visual Impairment	 A thicker/darker pencil will be provided to support the child with reading their own writing Children will be given enlarged images, pictures and diagrams Resources will be provided in the correct font size rather than enlarged to ensure sharpness and contrast is as clear as possible
